Consolidated Financial Statements for the year ended March 31, 2024

CHARTERED ACCOUNTANTS

INDEPENDENT AUDITOR'S REPORT

To the Members of Edelweiss Asset Reconstruction Company Limited (the "Holding Company")

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of Edelweiss Asset Reconstruction Company Limited (hereinafter referred to as the 'Holding Company") and its Trusts (Holding Company and its Trusts together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at March 31, 2024 and the Consolidated statement of Profit and Loss including the Consolidated Other Comprehensive income, the Consolidated statement of changes in equity and the Consolidated Statement of cash flows for the year then ended, and notes to the Consolidated Financial Statements, including a summary of significant accounting policies (hereinafter referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their Consolidated state of affairs of the Company as at March 31, 2024, of Consolidated profit including Consolidated other comprehensive income, Consolidated changes in equity and its Consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements for the financial year ended March 31, 2024. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated Financial Statements.

4th Floor, Iconic Tower, Urmi Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

(SR)					
As described in Note 6 of the Consolidated Financial Statements The Group has investment in SR amounts to Rs • Our audit procedures included an assessment of					
 internal controls over measurement of fail value and evaluating the methodologies, inputs judgments made and assumptions used by management in determining fair values. We evaluated rationale of the models and accounting treatment applied. We compared observable inputs against independent sources and externally available market data for sample cases. 					
 We have performed testing on a sample basis of key inputs as mentioned above to validate the reasonableness of the input values. We assessed disclosures included in the Consolidated Financial Statements with respect 					
to such fair valuation.					
al Statement					
• Our audit procedures included considering the Group's board approved policies for impairment of trade receivable and assessing compliance with the policies in terms of Ind AS 109.					
 We assessed the design and tested the operating effectiveness of key controls over the computation of provision on trade receivables. We obtained management's assessment of future cash flows and validated the assumptions with historical data on recovery and write off on trade receivables. 					
 For sample cases we tested the computation of lifetime expected credit losses. We tested the arithmetical accuracy of computation of ECL provision performed by the Company. We assessed the disclosures related to provision on trade receivables included in the Consolidated Financial Statements.

CHARTERED ACCOUNTANTS

Considering the significant management judgement and estimate involved in assessing control, we have considered this a key audit matter. Valuation of Purchase or originated credit impaire • As described in Note 5.1 of the Consolidated Fir	nancial Statement
The trusts that are consolidated, have assets on their books which are impaired and accordingly in accordance with Ind AS 109 classified as purchased or originated credit impaired assets ("POCI"). The Company has POCI (net of impairment) assets amounting to Rs. 39,814.27 millions as disclosed in the Consolidated Financial Statements as at March 31, 2024. These assets are measured using projected cash flows based on management estimates of recovery and then discounted at the credit adjusted effective interest rate. Further, the management has made an assessment on each POCI asset to ascertain future recoverability estimates. In making this assessment, the management has used several estimates, assumptions and sources of information (both internal and external), including but not limited to quality of collateral available, external credit reports, economic forecasts for future expected performance of the underlying companies etc. The assumptions and estimates used by the management may vary and actual results may differ from the estimates and	 The procedures performed by the component auditors of Holding Company, as reported by them to determine the appropriateness of the valuation of purchased or originated credit impaired assets by undertaking the following procedures: For POCI assets, understood methodology applied by the management to value these assets including the key inputs in that process which included future cash flow projections and the calculation of credit adjusted effective interest rate for discounting those cash flows and tested for samples these key inputs and estimates used. Tested the operating effectiveness of the controls for collating the information for future recovery estimates and past collections records. Verified on a sample basis the calculation of the credit adjusted effective interest rate used for the purpose of discounting these assets. Verified the arithmetical accuracy of the valuation of the POCI assets using the expected cash flow and discount rate performed by the Company using spreadsheets.
assumptions. Considering the significant management estimate and judgement involved in assessing cash flows and the discount rate, we have considered this as a key audit matter.	

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board report, but does not include the Consolidated Financial Statements and our auditor's report thereon, which we obtained prior to the date of this auditors report, and the Annual report, which is expected to be made available to us after that date.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the

4th Floor, Iconic Tower, Urm Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

CHARTERED ACCOUNTANTS

Consolidated Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Board Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those Charged with Governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the Consolidated financial position, Consolidated financial performance and Consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error,

4th Floor, Iconic Tower, Urmi Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

CHARTERED ACCOUNTANTS

as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the Financial Statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give

CHARTERED ACCOUNTANTS

in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

- 2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
 - (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
 - (d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
 - (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its Trusts incorporated in India, none of the directors of the Group companies, incorporated in India is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure 2.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Consolidated Financial Statements disclose the impact of pending litigations on the Consolidated financial position of the Group– Refer Note 35 to the Consolidated Financial Statements.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company, and its Trusts incorporated in India.
 - iv. (a) The Management of the Holding Company which is the Company incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in the note 50.9 to the accounts, during the year no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company, to or in any other persons or entities, including foreign entities ("Intermediaries"), with the

4th Floor, Iconic Tower, Urmi Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Trusts incorporated in India and included in the consolidated financial statements are not Companies under the Act and provision of Rule 11 (e) (i) is not applicable to Trusts.

(b) The Management of the Holding Company which is the Company incorporated in India whose financial statements have been audited under the Act have represented to us, to the best of their knowledge and belief, as disclosed in the note 50.9 to accounts, during the year no funds have been received by the Holding Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries. Trusts incorporated in India and included in the consolidated financial statements are not Companies under the Act and provision of Rule 11 (e) (ii) is not applicable to Trusts.

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material mis-statement.

- v. The Group has not declared or paid any dividend during the year.
- vi. Based on our examination which included test checks, the Holding Company have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

Trusts incorporated in India and included in the consolidated financial statements are not Companies under the Act and provision of Rule 11 (g) is not applicable to Trusts.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

"ANNEXURE 2" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF EDELWEISS ASSET RECONSTRUCTION COMPANY LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

То The Member of **Edelweiss Asset Reconstruction Company Limited**

In conjunction with our audit of the Consolidated Financial Statements of Edelweiss Asset Reconstruction Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2024, we have audited the internal financial controls with reference to Consolidated Financial Statements of the Holding Company and its Trusts (the Holding Company and its Trusts together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Management of the of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act. 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Consulidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to these Consolidated Financial Statement and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to these Consolidated Financial Statements included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting with reference to these Consolidated Financial Statements.

CHARTERED ACCOUNTANTS

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting with reference to these Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Consolidated Financial Statement to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting with reference to these Consolidated Financial Statements and such internal financial controls over financial reporting with reference to these Financial Statements were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting includes only the Company. The trust forming part of the Consolidated Financial Statements are not Companies as defined as per the Act and accordingly reporting on the adequacy and operating effectiveness of the internal control is not applicable to these trusts.

1.0 Notes to the Consolidated Financial Statements:

1.1 Background

Edelweiss Asset Reconstruction Company Limited ('the Company') is registered with Reserve Bank of India w.e.f. October 16, 2009 with Registration no. 13/2009 as a Securitisation and Asset Reconstruction Company under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 (' SARFAESI').

The Company was incorporated as a Public Company on October 5, 2007 and is engaged in business of acquiring Loan Portfolios, Loan Accounts, Non- Performing Assets (NPA) from the Banks and Financial Institutions and resolving them through appropriate resolution strategies enunciated in SARFAESI and give loans for undertaking restructuring of acquired loan as permitted by Reserve Bank of India. The Company's registered office is at Edelweiss House, Off CST road, Kalina, Mumbai, Maharashtra, India.

The Ultimate Holding Company of the Company is Edelweiss Financial Services Limited ("EFSL").

Trusts are set-up under SARFAESI for acquisition of Non Performing Asset and the trusts which are controlled by the company are considered subsidiary / controlled structured entities. The Company and trusts are collectively referred to as 'the Group'. Trusts are governed by their respective terms of the indenture of Trust and the Offer Document, based on which Security Receipts (SRs), which represent the beneficial undivided right, title and interest in the assets of the respective trust have been issued to the beneficiaries. The objective of a Trust is to acquire stressed assets for the purpose of carrying on the activity of securitization and asset reconstruction.

1.2 Basis of preparation of financial statements

The consolidated financial statements of the Group has been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These consolidated financial statements have been prepared on a historical cost basis, except for certain financial instruments such as financial assets and liabilities measured at fair value through profit and loss (FVTPL) instruments, derivative financial instruments and other financial assets held for trading, which have been measured at fair value.

The consolidated financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

1.3 Presentation of financial statements

The Group presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 33.

Notes to the consolidated financial statements (Continued)

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without it being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Group and or its counterparties

1.4 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its controlled structured entities as at March 31,2024. The Group consolidates a trust when it controls it. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders
- Whether the group is exposed, or has rights, to variable returns from its involvement with the investee, and has the power to affect the variability of such returns
- Decision making authority in trusts managed by it, economic interests in the form of units of Security Receipts (SRs), fees earned and collection incentives.
- Investment management and other contractual arrangements
- Removal rights held by other parties

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the company, i.e., year ended on March 31.

Notes to the consolidated financial statements (Continued)

Consolidation procedure:

- a. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its trusts. For this purpose, income and expenses of the trusts are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- b. Offset (eliminate) the carrying amount of the parent's investment in each trusts and the parent's portion of equity of each trusts.
- c. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group (profits or losses resulting from intragroup transactions that are recognised in assets, are eliminated in full). Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of OCI are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

On consolidation, all intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full.

A change in the ownership interest of a trust, without loss of control, is accounted for as an equity transaction. However, at each reporting date, the non-controlling interest is derecognised as if it were acquired at that date and a financial liability is recognised and measured at its fair value. The difference between these two amounts is recognised as an equity transaction and attributed to owners of the parent.

The Group sets up trusts to acquire stressed assets for the purpose of carrying on the activity of Securitisation and Asset Reconstruction. These Trusts issue SRs which represent the beneficial undivided right, title and interest in the assets of the respective trust to the beneficiaries. The Group acts as assets manager in the respect of these trusts and consolidates the trusts which it controls. When making this judgement, the Group also considers voting and similar rights available to itself and other parties, who may limit the Group's ability to control, remuneration to which it is entitled and its exposure to variability of returns from other interests held in trusts. There are trusts that do not meet consolidation criteria either due to magnitude of, and variability associated with, Group's remuneration relative to the returns expected from the activities of investee or substantive rights held by other parties.

1.5 Material accounting policies

1.5.1 Business model assessment

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

Notes to the consolidated financial statements (Continued)

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Group's assessment

1.5.2 The SPPI test

As a second step of its classification process the Group assesses the contractual terms of financial to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset. The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

1.5.3 Recognition of Interest

RED AC

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the financial asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Group recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in statement of profit and loss.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Group calculates interest income by applying the effective interest rate to the amortised cost 8. Connet of expected credit loss) of the financial asset.

Notes to the consolidated financial statements (Continued)

1.5.4 Financial Instruments

1.5.4.1 Date of recognition

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the group becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Group recognises debt securities, deposits and borrowings when funds reach the Group.

1.5.4.2 Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. Trade receivables are measured at the transaction price.

1.5.4.3 Day 1 profit or loss

When the fair value of financial instruments at initial recognition differs from the transaction price, the Group accounts for the Day 1 profit or loss, as described below:

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

1.5.5 Measurement categories of financial instruments

1.5.5.1 Financial assets:

The Group classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through profit or loss [FVTPL]

Notes to the consolidated financial statements (Continued)

The Group measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are are initially measured at fair value and subsequently measured at FVTPL.

1.5.5.1.1 Amortized cost and Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including receipts and payments that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

1.5.5.1.2 Financial assets at fair value through profit or loss

Financial assets in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when one of the following criteria are met. Such designation is determined on an instrument-by-instrument basis:

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or recognising gains or losses on them on a different basis
- Financial assets at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss.

Notes to the consolidated financial statements (Continued)

1.5.5.1.3 Loan commitment

Undrawn loan commitments are commitments under which, the Group is required to provide a loan with pre-specified terms to the customer during the duration of commitment. Undrawn loan commitments are in the scope of the ECL requirements, as set out in Note 1.5.8

1.5.5.2 Financial liabilities

All financial liabilities are measured at amortised cost except derivative financial liabilities and financial liabilities designated at fair value through profit and loss.

1.5.5.2.1 Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

The Group issues certain non-convertible debentures, the return of which is linked to performance of specified indices over the period of the debenture. Such debentures have a component of an embedded derivative which is fair valued at a reporting date. The resultant 'net unrealised loss or gain' on the fair valuation of these embedded derivatives is recognised in the statement of profit and loss. The debt component of such debentures is measured at amortised cost using yield to maturity basis.

1.5.5.2.2 Financial liabilities at fair value through profit or loss

Financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when the following criteria is met. Such designation is determined on an instrument-by-instrument basis:

• The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring liabilities or recognising gains or losses on them on a different basis,

Financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss. Interest incurred on financial liabilities designated at FVTPL is accrued in finance cost, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument.

1.5.5.3 Financial liabilities and equity instruments

Financial instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Notes to the consolidated financial statements (Continued)

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments

1.5.6 Reclassification of financial assets and financial liabilities

The Group does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Group acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Group did not reclassify any of its financial assets or liabilities upto and including the year ended March 31, 2024.

1.5.7 Derecognition of financial assets and financial liabilities

1.5.7.1 Derecognition of financial assets due to substantial modification of terms and conditions

The Group derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised financial asset are classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be POCI.

When assessing whether or not to derecognise a loan to a customer, amongst others, the Group considers the following factors:

- Change in currency of the loan
- Introduction of an equity feature
- Change in counterparty

If the modification is such that the instrument would no longer meet the SPPI criterion

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Group records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Derecognition of financial assets (other than due to substantial modification of terms and conditions)

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Group also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

Notes to the consolidated financial statements (Continued)

The Group has transferred the financial asset if, and only if, either:

- The Group has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Pass-through arrangements are transactions whereby the Group retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Group has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- The Group cannot sell or pledge the original asset other than as security to the eventual recipients

The Group has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Group is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Group has transferred substantially all the risks and rewards of the asset; or
- The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Group considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Group has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Group's continuing involvement, in which case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

1.5.7.2 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Notes to the consolidated financial statements (Continued)

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised in profit or loss.

1.5.8 Impairment of financial assets

The Group records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitment, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables.

For all other financial instruments, the Group recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Financial assets that are purchased or originated credit impaired (POCI):

On initial recognition, POCI assets do not carry any impairment allowance. Lifetime ECL are incorporated in the calculation of effective interest rate. Cash flows are estimated on annual basis. Any changes in expected cash flows are discounted using the original credit adjusted effective interest rate and the resulting changes are recognised as impairment gains or losses. Favourable changes in lifetime ECL are recognised as an impairment gain, even if the favourable changes are more than the amount, if any, previously recognised in profit or loss as impairment losses.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Notes to the consolidated financial statements (Continued)

Based on the above process, the Group categorises its financial instruments into Stage 1, Stage 2, and Stage 3 as described below:

- Stage 1:When loans are first recognised, the group recognises an allowance based on
12mECLs. Stage 1 financial instruments also include facilities where the credit
risk has improved and the financial instruments has been reclassified from
Stage 2.
- **Stage 2:** When a financial instruments has shown a significant increase in credit risk since origination, the group records an allowance for the 12m ECLs. Stage 2 financial instruments also include facilities, where the credit risk has improved and the financial instruments has been reclassified from Stage 3.
- Stage 3:Financial instruments considered credit-impaired (as outlined in Note1.5.2.2).The group records an allowance for the LTECLs.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend and the Group's understanding of the specific future financing needs of the debtors.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

If a financial instrument includes both a loan (i.e. financial asset) and an undrawn commitment (i.e. loan commitment) component and the Group cannot separately identify the expected credit losses on the loan commitment component from those on the financial asset component, the expected credit losses on the loan commitment have been recognised together with the loss allowance for the financial asset. To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses have been recognised as a provision.

1.5.9 Collateral valuation

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a periodical basis.

Notes to the consolidated financial statements (Continued)

To the extent possible, the Group uses active market data for valuing financial assets held as collateral. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, or based on housing price indices.

1.5.10 Write off

ERED ACC

Financial assets are written off either partially or in their entirety only when the Group has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in statement of profit and loss.

1.5.11 Determination of fair value

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

• Level 1 financial instruments –Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments-Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Notes to the consolidated financial statements (Continued)

• Level 3 financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Group periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

The Group applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Group evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

1.5.12 Revenue from contract with customer

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at transaction price i.e. the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Group consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Group excludes the estimates of variable consideration that are constrained. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

The Group recognises revenue from the following sources:

- a. The fee income comprises of management fees. The Group receives management fee from trusts declared by it for acquisition of financial assets and the same is accounted for on accrual basis as per terms of the relevant trust deeds and offer document issued by the Trust. Management fees are calculated and charged as a percentage of the Net Assets Value (NAV) at the lower end of the range of the NAV specified by the Credit Rating Agency.
- b. Redemption incentive and recovery incentive is accounted over the period on cash basis, i.e. as and when received by the Group, based on terms of the relevant trust deeds and offer document issued by the Trust.
- c. Any upside share in excess realisation over acquisition price of financial asset by trust is recognised at point in time basis as per terms of the relevant trust deed/offer document.

Interest on bank deposits is accounted for on accrual basis as per the terms of the deposits.

The above receipts are recognised as revenue excluding GST.

Notes to the consolidated financial statements (Continued)

f. Interest income on financial assets is recognized on an accrual basis using effective interest method. Interest revenue is continued to be recognized at the original effective interest rate applied on the gross carrying amount of assets falling under impairment stages 1 and 2 as against on amortised cost for the assets falling under impairment stage 3.

1.5.13 Operating leases (IND AS 116)

Leases as a Lessee

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Rights-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e the date of underlying asset is available for use). Rights-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of rights-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Rights-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease Liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date as the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in lease term, a change in lease payments or a change in the assessment of an option to purchase the underlying asset.

Short term lease

The Group has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Group recognises lease payment associated with these leases as an expense on a straight-line basis over lease term.

Notes to the consolidated financial statements (Continued)

1.5.14 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares into equity shares.

1.5.15 Retirement and other employee benefit

Provident fund and national pension scheme

The Group contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

Gratuity

The Group's gratuity scheme is a defined benefit plan. The Group's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

 Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and

Net interest expense or income

Notes to the consolidated financial statements (Continued)

Compensated Absences

The eligible employees of the Group are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Group recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

1.5.16 Share-based payment arrangements

Certain employees of the Group have been granted equity-settled ESOPs by the ultimate parent company (Edelweiss Financial Services Limited). The Group recognizes a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the ultimate parent at the grant date.

The fair value determined at the grant date is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in deemed capital contribution from the ultimate parent. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the deemed capital contribution. In cases where the share options granted vest in instalments over the vesting period, the Group treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

1.5.17 Property, plant and equipment

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria i.e. it is probable that future economic benefits will flow to the entity and cost can be measured reliably. Repairs and maintenance are recognised in statement of profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Group has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation.

Notes to the consolidated financial statements (Continued)

Estimated useful lives of the assets are as follows:

Nature of assets	Estimated useful life		
Building (other than Factory Building)	60 years		
Vehicles	8 years		
Office Equipment	5 years		
Computers - Servers and networks	6 years		
Computers - End user devices, such as desktops, laptops, etc.	3 years		
Computers - End user devices, such as desktops, laptops, etc.	,		

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

1.5.18 Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors. Amortization methods and useful lives are reviewed periodically including at each financial year end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates.

Estimate useful life of software is considered as 3 years.

Notes to the consolidated financial statements (Continued)

1.5.19 Impairment of non-financial assets

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Group estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

1.5.20 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

1.5.21 Expenses incurred by the Group on behalf of the trust

Expenses incurred at pre-acquisition stage are recognised as expenses for the period in which such costs are incurred. If such expenses are contracted to be recovered from the trusts the same are shown as loan to trust in the Balance Sheet and grouped under Loans. These expenses are reimbursed to the Group in terms of the provisions of relevant trust deed and offer document of the trusts.

1.5.22 Provisions and other contingent liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Group determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement. Detailed disclosures are provided in Note 17.

1.5.23 Income tax expenses

Income tax expense represents the sum of the current tax and deferred tax.

Notes to the consolidated financial statements (Continued)

1.5.23.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

1.5.23.2 Deferred tax

Deferred tax is recognised on temporary differences at the reporting date between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognised with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognised to the extent it is probable that:

• the entity will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Notes to the consolidated financial statements (Continued)

1.5.23.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

1.5.23.4 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

1.5.24 Undrawn Loan Commitments

Undrawn loan commitments are commitments under which, over the duration of the commitment, the Group is required to provide a loan with pre-specified terms to the customer. Undrawn loan commitments are in the scope of the ECL requirements, as set out in Note 5.2. The nominal contractual value of undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the balance sheet. The nominal values of these instruments together with the corresponding ECLs are disclosed in Note 5.2.

1.5.25 Derivative contracts (Derivative assets / Derivative liability)

Group has designed a risk strategy based to cover exposure on issuance of G-Sec Linked Debentures, by entering into a derivative contracts either to minimize the loss or to earn a minimum committed income by entering into a combination of derivative contracts (say for example purchased call and put options) with a wide range of strike prices. Above strategy has been approved by the risk committee and ensures that risk is fully or partially covered, hence supports to reduce the risk exposure.

Derivatives are initially recognised at fair value and are subsequently re-measured at fair value through profit or loss. The resulting gain or loss is recognised in profit or loss immediately.

Notes to the consolidated financial statements (Continued)

1.6 Critical accounting judgements, estimates and assumptions

In the application of the Group's accounting policies, which are described in note 1.5, the management is required to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities, about the carrying amounts of assets and liabilities that are not readily available from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

1.6.1 Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations, that the management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

1.6.1.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

1.6.1.2 Significant increase in credit risk

As explained in note 1.5.8, ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. Ind AS 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Group takes into account qualitative and quantitative reasonable and supportable forward-looking information. Refer to note 1.5.2.2 for more

Notes to the consolidated financial statements (Continued)

1.6.1.3 Determining lease term for lease contracts with renewal and termination option:

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain, whether or not, to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation of the leased asset).

1.6.2 Sources of key estimation uncertainty

The following are the key assumptions concerning the future, and other sources of key estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

1.6.2.1 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

For Investments made into Security receipts (SRs), Group uses discounted cash flow model, given that the SRs are less liquid instruments. Expected cash flow levels including timing of cash flows are estimated by using quantitative and qualitative measures regarding the characteristics of the underlying assets including default rates, nature & value of collaterals, manner of resolution and other economic drivers. For any valuation which are based on models, Judgements and estimates are applied, which include considerations of liquidity, credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

Notes to the consolidated financial statements (Continued)

1.6.2.2. Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Group's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- Probabilities of defaults (PDs) the calculation of which includes historical data, assumptions and expectations of future conditions.
- The Group's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life-time expected credit loss model basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, exposure at defaults and loss given defaults (LGDs)

It is Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

1.6.2.3 Effective interest rate method

The Group's EIR methodology, as explained in Note 1.5.3, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

1.6.2.4 Accounting for deferred taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Notes to the consolidated financial statements (Continued)

The Group has recognised deferred tax assets on carried forward tax losses where the Group believes that the said deferred tax assets shall be recoverable based on the estimated future taxable income which in turn is based on approved business plans and budgets. The losses are allowed to be carried forward to the years in which the Group expects that there will be sufficient taxable profits to offset these losses.

1.6.2.5 Provisions and other contingent liabilities

The Group operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations.

When the Group can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the group records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the group takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

For further details on provisions and other contingencies see Note 17 and 35.

Securities premium account

Transfer to/ (from) Impairment reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Debenture redemption reserve

The Companies Act 2013 requires companies that issue debentures to create a debenture redemption reserve from annual profits until such debentures are redeemed. The Company is required to transfer a specified percentage (as provided in the Companies Act, 2013) of the outstanding redeemable debentures to debenture redemption reserve. The amounts credited to the debenture redemption reserve may not be utilised except to redeem debentures. On redemption of debentures, the amount may be transferred from debenture redemption reserve to retained earnings. Company has transferred back INR 69.05 million from DRR to retained earnings on account of repayment of debentures during the year.

According to the provisions of Rule (18) [7] (iii) of the Companies (Share Capital and Debentures) Rules, 2014, requirements of creation of Debenture Redemption Reserve are not applicable to listed companies.

Impairment Reserve

Pursuant to BEI circular no. RBJ/2019-20/170 DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020, Reserve Bank of India (RBI) requires every Asset Reconstruction Company to create an Impairment Reserve by appropriating the difference between impairment allowance under Ind AS 109 and the provisioning required under earlier applicable Income Recognition, Asset Classification and Provisioning (IRACP) guidelines (including standard asset provisioning) from their net profit or loss after tax to the said Impairment Reserve. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital. Further, no withdrawals are permitted from this reserve without prior permission from RBI.

Retained Earnings

Retained earnings represents surplus/accumulated earnings of the Company and are available for distribution to shareholders.

March 31, 2023	Opening deferred tax asset/(liability)	Recognised in profit or loss	Recognised in other comprehensive income	Recognised directly in equity	Others	Total Movement	Closing deferred tax asset/(liability)
Deferred taxes in relation to:							
Investments in Security Receipts	1,058.95	371.84	•	-	-	371.84	1,430.79
Trade Receivables	96.99	(30.19)	-	-		(30.19)	66.80
Share of Loss in Securitisation Trusts	(1,712.81)	(128.99)				(128.99)	(1,841.80)
ECL on Loans	438.64	(320.23)	-	-	-	(320.23)	118.41
ESOP cost	4.01	-	-			-	4.01
Minimum Alternate Tax credit	~		-		-		-
EIR adjustment on borrowings	-		-	-			-
Others	(299.80)	311.22	0.73	-	-	311.95	12.15
Total	(414.02)	203.65	0.73	-	-	204.38	(209.64)

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority. Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

32. Retirement Benefit Plan

A) Defined contribution plan (Provident fund and National Pension Scheme):

Amount of ₹ 26.08 million (Previous year: ₹ 23.59 million) is recognised as expenses and included in "Employee benefit expense" – Note 28 in the statement of Profit and loss.

B) Defined benefit plan (Gratuity):

The following tables summarize the components of the net benefit expenses recognised in the statement of profit and loss and the funded and unfunded status and amount recognised in the balance sheet for the gratuity benefit plan.

1: Reconciliation of Defined Benefit Obligation (DBO)

	March 31, 2024	March 31, 2023
Present value of DBO at start of the year	38.61	32.74
Service Cost		
a. Current Service Cost	6.69	6.30
b. Past Service Cost		
c. Loss/ (Gain) from Settlement	-	
Interest Cost	2.73	1.80
Benefits Paid	(4.81)	(2.94)
Re-measurements		~
a. Actuarial Loss/ (Gain) from changes in demographic assumptions	-	~
b. Actuarial Loss/ (Gain) from changes in financial assumptions	0.22	(2.51)
c. Actuarial Loss/ (Gain) from experience over the past year	0.87	5.44
Effect of acquisition/ (divestiture)	-	-
Changes in foreign exchange rates	-	-
Transfer In/ (Out)	(0.11)	(2.22)
Present value of DBO at end of the year	44.19	38.61

2: Reconciliation of Fair Value of Plan Assets

	March 31, 2024	March 31, 2023
Fair Value of Plan Assets at start of the year	-	-
Contributions by Employer	4.81	2.94
Benefits Paid	(4.81)	(2.94)
Interest Income on Plan Assets	-	
Re-measurements	-	-
Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/ (asset)	-	-
Effect of acquisition/ (divestiture)	~	-
Changes in foreign exchange rates	-	
Transfer In/ (Out)		
Fair Value of Plan Assets at end of the year	-	-
Actual Return on Plan Assets	-	-
Expected Employer Contributions for the coming year	-	-

3: Expenses recognised in the Profit and Loss Account

	March 31, 2024	March 31, 2023
Service Cost		
a. Current Service Cost	6.69	6.30
b. Past Service Cost	-	-
c. Loss/ (Gain) from Settlement	-	-
Net Interest on net defined benefit liability/ (asset)	2.73	1.80
Changes in foreign excxhange rates		-
Employer Expenses/ (Income)	9.42	8.10

4: Net Liability/ (Asset) recognised in the Balance Sheet

	March 31, 2024	March 31, 2023
Present Value of DBO	44.19	38.61
Fair Value of Plan Assets	-	-
Liability/ (Asset) recognised in the Balance Sheet	44.19	38.61
Funded Status [Surplus/ (Deficit)]	(44.19)	(38.61)
Of Which, Short term Liability	6.59	5.75
Experience Adjustment on Plan Liabilities: (Gain)/ Loss	0.87	5.45

Notes to the consolidated financial statements (Continued) (Currency: Indian rupees in millions)

5: Actuarial Assumptions

	March 31, 2024	March 31, 2023
Salary Growth Rate (% p.a.)	7.00%	7.00%
Discount Rate (% p.a.)	7.00%	7.10%
Withdrawal Rate (% p.a.)	16.00%	16.00%
Mortality	IALM 2012-14	IALM 2012-14
	(Ultimate)	(Ultimate)
Interest Rate on Net DBO/ (Asset) (% p.a.)	7.10%	5.90%
Expected Weighted Average Remaining Working Life (years)	3.50	3.50

6: Movement in Other Comprehensive Income

	March 31, 2024	March 31, 2023
Balance at start of year (Loss)/ Gain	(10.02)	(7.09)
Re-measurements on DBO	-	-
a. Actuarial (Loss)/ Gain from changes in demographic assumptions	-	-
b. Actuarial (Loss)/ Gain from changes in financial assumptions	(0.22)	2.51
c. Actuarial (Loss)/ Gain from experience over the past year	(0.87)	(5.44)
Balance at end of year (Loss)/ Gain+	(11.11)	(10.02)

7: Sensitivity Analysis

DBO increases/ (decreases) by	March 31, 2024	March 31, 2023
1% Increase in Salary Growth Rate	2.13	1.93
1% Decrease in Salary Growth Rate	(2.07)	(1.80)
1% Increase in Discount Rate	(2.05)	(1.78)
1% Decrease in Discount Rate	2.15	1.95
1% Increase in Withdrawal Rate	-	0.01
1% Decrease in Withdrawal Rate	~	(0.01)
Mortality (increase in expected lifetime by 1 year)	~	~
Mortality (increase in expected lifetime by 3 years)	*	(0.00)

Note: The sensitivity is performed on the DBO at the respective valuation date by modifying one parameter whilst retaining other parameters constant. There are no changes from the previous period to the methods and assumptions underlying the sensitivity analyses.

8: Movement in Surplus/ (Deficit)

	March 31, 2024	March 31, 2023
Surplus/ (Deficit) at start of year	(38.61)	(32.74)
Net (Acquisition)/ Divestiture	-	-
Net Transfer (In)/ Out	0.11	2.22
Movement during the year	-	-
Current Service Cost	(6.69)	(6.30)
Past Service Cost	-	-
Net Interest on net DBO	(2.73)	(1.80)
Changes in Foreign Exchange Rates	-	
Re-measurements	(1.09)	(2.93)
Benefits paid	4.81	2.94
Surplus/ (Deficit) at end of year	(44.19)	(38.61)

9: Other Disclosures

Description of ALM Policy

As the plan is unfunded, an ALM policy is not applicable.

Description of funding arrangements and funding policy that affect future contributions

The plan is unfunded and the status is unlikely to change over the next few years.

Maturity profile

The average expected remaining lifetime of the plan members is 3.5 years (Previous year: 3.5 years) as at the date of valuation. This represents the weighted average of the expected remaining lifetime of all plan participants.

Notes to the consolidated financial statements (Continued)

(Currency: Indian rupees in millions)

33. Maturity analysis of assets and liabilities

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled. With regard to loans and advances to customers, the company uses the same basis of expected repayment behaviour as used for estimating the EIR. Issued debt reflect the contractual coupon amortisations.

These are included on cash basis. The variable compensation included herein is on cash basis.

# Notes to the consolidated financial statements (Continued) (Currency: Indian rupees in millions)

#### F. Compensation of key management personnel of the Company

Key management personnel are those individuals who have the authority and responsibility for planning and exercising power to directly or indirectly control the activities of the Group and its employees. The Company considers the members of the Board of Directors which include independent directors (and its sub-committees) and Executive Committee to be key management personnel for the purposes of Ind AS 24 Related Party Disclosures.

Particulars	March 31, 2024	March 31, 2023
Short–term employee benefits	62.46	47.33
Post-employment pension (defined contribution)	-	~
Termination benefits	-	
Total	62.46	47.33

#### G. Transactions with key management personnel of the Company

The Company enters into transactions, arrangements and agreements involving directors, senior management and their business associates, or close family members, in the ordinary course of business under the same commercial and market terms, interest and commission rates that apply to non-related parties. The following table provides the total amount of transactions, which have been entered into with key management personnel for the relevant financial year:

Particulars	March 31, 2024	March 31, 2023
Key management personnel of the Company	62.46	47.33

#### 37. Capital management

The primary objectives of the company's capital management policy are to ensure that the company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

Particulars	March 31, 2024	March 31, 2023
Common Equity Tier1 (CET1) capital	27,528.02	23,592.04
Other Tier 2 capital instruments	-	
Total capital	27,528.02	23,592.04
Risk weighted assets	45,629.98	47,925.34
CET1 capital ratio	60.33%	49.23%
Total capital ratio	60.33%	49.23%

### 38. Fair value measurement

### 38.1 Valuation Principles

The company measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

• Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

• Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

• Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

### 38.2 Valuation framework

The company has an established control framework for the measurement of fair values. This framework includes a Control function, which is independent of front office management and reports to the Chief Financial Officer, and which has overall responsibility for independently verifying the results of investment operations and all significant fair value measurements. Specific controls include:

verification of observable pricing;

re-performance of model valuations;

- a review and approval process for new models and changes to models;
- quarterly calibration and back-testing of models against observed market transactions;
- analysis and investigation of significant daily valuation movements; and

• review of significant unobservable inputs, valuation adjustments and significant changes to the fair value measurement of Level 3 instruments compared with the previous month, by senior member of management.

### 38.3 Assets and liabilities by fair value hierarchy

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

Particulars		March 3	31, 2024	
	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investments				
Security receipts	-	-	17,536.09	17,536.09
Total financial assets measured at fair value on a recurring basis	-	-	17,536.09	17,536.09

Particulars		March	31, 2024	
	Level 1	Level 2	Level 3	Total
Liabilities measured at fair value on a recurring basis -				
Non Convertible Debentures (designated at FVTPL)	~	-	7,010.23	7,010.23
Total financial liabilities measured at fair value on a recurring basis	-	-	7,010.23	7,010.23

Particulars		March 3	1, 2023	
	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investments				
Security receipts	-	-	27,134.74	27,134.74
Total financial assets measured at fair value on a recurring basis	-	-	27,134.74	27,134.74

Particulars		March	31, 2023	
	Level 1	Level 2	Level 3	Total
Liabilities measured at fair value on a recurring basis -				
Non Convertible Debentures (designated at FVTPL)	•	-	8,869.51	8,869.51
Total financial liabilities measured at fair value on a recurring basis	-	-	8,869.51	8,869.51

During the year there were no transfers between level 1 and level 2. Similarly, there were no transfers from or transfer to level 3.

Carrying amounts of cash and cash equivalents, trade receivables, loans and trade and other payables as on March 31, 2024 approximate the fair value because of their short term nature. Difference between carrying amounts and fair values of bank deposits, other financial assets, other financial liabilities and borrowings subsequently measured at amortised cost is not significant in each of the years presented.

### 38.4 Movement in level 3 financial instruments measured at fair value

The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

	Investments in security
Financial assets	receipts
At April 1, 2023	27,134.74
Purchase of Investments	2,170.70
Redemption/Write-offs	(8,833.35)
Gains for the year recognised in profit or loss	(2,936.00)
At March 31, 2024	17,536.09
Unrealised gains related to balances held at the end of year	(6,691.97)
Financial liabilities	Debt Securities
At April 1, 2023	8,869.51
Issuances	-
Settlements	(1,279.74)
Interest Accrued/ losses for the year recognised in profit or loss	(579.54)
At March 31, 2024	7,010.23
Unrealised losses related to balances held at the end of the year	1,435.78

	Investments in security
Financial assets	receipts
At April 1, 2022	36,776.04
Purchase of Investments	5,764.05
Redemption/Write-offs	(13,524.90)
Gains for the year recognised in profit or loss	(1,880.47)
At March 31, 2023	27,134.74
Unrealised gains related to balances held at the end of the year	(3,659.52)
Financial liabilities	Debt Securities
At April 1, 2022	11,243.99
Issuances	
Settlements	(1,904.56)
Interest Accrued/ losses for the year recognised in profit or loss	(469.93)
At March 31, 2023	8,869.51
Unrealised losses related to balances held at the end of the year	2,024.97

Total	27,134.74	8,869.51							

* Expected Gross Recoveries are pertaining to the overall asset under management of the company. The cash attributable to the company's share in expected gross recoveries will be dependent on the company's investment share and terms of the SR subscribed.

## 38.6 Quantitative analysis of significant unobservable inputs

### Discount margin/spreads

the net present value of an asset or increase the value of a liability. They generally reflect the premium an investor expects to achieve over the benchmark interest rate to compensate for the higher risk driven by the uncertainty of the cash flows caused by the credit quality Discount margin/spreads represent the discount rates used when calculating the present value of future cash flows. In discounted cash flow models such spreads are added to the benchmark rate when discounting the future expected cash flows. Hence, these spreads reduce of the asset. They can be implied from market prices and are usually unobservable for illiquid or complex instruments.

### Cash Flow

Expected cash flow levels including timing of cash flows are estimated by using quantitaive and qualitative measures regarding the characteristics of the underlying assets including default rates, nature and value of collaterals, manner of resolution and other economic

drivers. The timing of expected cash flows is influenced by the nature of collateral and the expected use of the same by the market participants. The manner of resolution is determined based on financial position and negotiations with the counterparty.

### 38.7 Quantitative analysis of significant unobservable inputs Asset backed securities

These instruments include residential mortgage backed securities (RMBS), commercial mortgage backed securities (CMBS) and other asset-backed securities. The market for these securities is not active. Therefore, the Group uses a variety of valuation techniques to measure their fair values. For certain more liquid instruments, the Group uses trade and price data updated for movements in market levels between the observed and the valuation dates. Less liquid instruments are valued by discounted cash flow models. Expected cash flow jevels are estimated by using quantitative and qualitative measures regarding the characteristics of the underlying assets including prepayment rates, default rates and other economic drivers such as loan-to-value ratios, emergence period estimation, indebtedness and rental

	75,065.55	
Loan commitments -Secured	~	Tangible Assets
Loan commitments -Unsecured		
Other commitments (max exposure)	131.88	
Total	75,197.47	·

March 31, 2023	Maximum exposure to credit risk (carrying amount before ECL)	Principal type of collateral
Financial assets		
Loans:		
Wholesale loans - Secured	31,952.54	Tangible Assets
Wholesale loans - Unsecured	602.68	
Trade receivables	2,778.16	Tangible Assets
Total financial assets at amortised cost	35,333.38	
Financial assets at FVTPL (except equity)*	27,134.74	Tangible Assets
Total financial instruments at fair value through profit or loss	27,134.74	
	62,468.12	
Loan commitments -Secured	125.00	Tangible Assets
Loan commitments -Unsecured	÷	
Other commitments (max exposure)	131.88	
Total	62,725.00	

*Financial assets at FVTPL (except equity) and trade receivables comprises of Investment in Security Receipts and fees receivables respectively. Investments in security receipts are made into the security receipts issued by the Trusts and Trusts in turn have used these proceeds to acquire financial assets from banks/Financial Institutions which are secured by collateral, such as Land & Building, Plant & Machinery, Book debts, Inventory and other working capital items, Shares and Others.

Loans including commitments are secured by way of tangible assets such as Land & Building, Plant & Machinery, Book debts, Inventory and other working capital items, Shares and Others.

The below tables provide an analysis of the current fair values of collateral held and credit enhancements for stage 3 assets. Dependent on the level of collateral, some Stage 3 exposures may not have individual ECLs when the expected value of the collateral is greater than the LGD, even in if the future value of collateral is forecast using multiple economic scenarios.

March 31, 2024	Maximum exposure to credit risk (carrying amount before ECL) (A)	Associated ECL (B)	Carrying amount (A-B)	Fair value of collateral

### Notes to the consolidated financial statements (Continued)

(Currency: Indian rupees in millions)

### 41. Liquidity risk and funding management

Liquidity risk emanates from the mismatches existing on the balance sheet due to differences in maturity and repayment profile of assets and liabilities. These mismatches could either be forced in nature due to market conditions or created with an interest rate view. Such risk can lead to a possibility of unavailability of funds to meet upcoming obligations arising from liability maturities. To avoid such a scenario, Edelweiss has ensured maintenance of a Liquidity Cushion in the form of Fixed Deposits, Cash, Credit Lines etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. A liquidity cushion amounting to 10-12% of the borrowings is sought to be maintained through such assets. These would be to take care of immediate obligations while continuing to honour our commitments as a going concern. There are available lines of credit from banks which are drawable on notice which further augment the available sources of funds.

### 41. 1. Analysis of non-derivative financial liabilities by remaining contractual maturities

The table below summarises the maturity profile of the undiscounted cash flows of the Company's non-derivative financial liabilities as at 31 March.

Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Company expects that the counterparties will not request repayment on the earliest date it could be required to pay.

As at March 31, 2024	Less than 3 months	3 months to 6 months	6 months to 1 year	1 year to 3 years	Greater than 3 Years	Total
Trade payables	45.93	-	-	-	-	45.93

Total assets	26,968.91	842.47	37,636.90	106.72	65,555.00

1. The assets pledged as collateral represents assets available for specific purpose which are not available as collateral for additional borrowings.

25

* Represents assets which are not pledged, however the asset has been created for specific purpose and hence it is restricted from using to secure funding for legal or other reason.

Refer terms of pledge mentioned in Note 6.1

### 42. Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Board has established limits on the non-trading interest rate gaps for stipulated periods.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Group's statement of profit and loss and equity. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at 31 March 2023, including the effect of hedging instruments. The sensitivity of equity is calculated by revaluing the fixed rate FVOCI, including the effect of any associated hedges and swaps designated as cash flow hedges, at 31 March for the effects of the assumed changes in interest rates. The total sensitivity of equity is based on the assumption that there are parallel shifts in the yield curve.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Group's statement of profit and loss and equity.

		2023-24						
Currency of borrowing / advances	Increase in basis points	Effect on profit before tax	Effect on Equity	Decrease in basis points	Effect on profit before tax	Effect on Equity

25

### 43. Unconsolidated Structured Entities

INR

An entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

(2.42)

The following tables show the carrying amount of the company's recorded interest in its balance sheet as well as the maximum exposure to risk (as defined in below) due to these exposures in the unconsolidated structured entities.

Particulars	March	March 31, 2024		
	Securitisation trusts	Maximum exposure	Securitisation trusts	Maximum exposure
Loans	389.79	389.79	591.95	591.95
Trade Receivables	. 647.53	647.53	2,376.79	2,376.79
Investment in Security Receipts	17,536.10	17,536.10	27,134.74	27,134.74
Total Assets	18,573.42	18,573.42	30,103.48	30,103.48
Off-balance sheet exposure	131.88	131.88	131.88	131.88
Size of the structured entity	2,64,510.46	2,64,510.46	3,47,020.65	3,47,020.65
Income from the structured entity	5,513.06	5,513.06	4,038.73	4,038.73

Standalone Financial Statements for the year ended March 31, 2024

### **INDEPENDENT AUDITOR'S REPORT**

To the Members of Edelweiss Asset Reconstruction Company Limited

### **Report on the Audit of Standalone Financial Statements**

### Opinion

We have audited the Standalone Financial Statements of Edelweiss Asset Reconstruction Company Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024 and the Statement of Profit and Loss, including the Statement of Other Comprehensive income, Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31 2024 and its profit including Other Comprehensive income, its Cash Flows and the Changes in Equity for the year ended on that date.

### **Basis for Opinion**

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

### **Key Audit Matters**

Key audit matters are those matters that in our professional judgment, were of most significance in our audit of the Standalone Financial Statements for the financial year ended March 31 2024. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Financial Statements.

### NANGIA & CO LLP CHARTERED ACCOUNTANTS

	How our audit addressed the key audit matter
Fair Valuation of Investments in Security Receipts (SR)	
As described in Note 6 of the standalone financial stat	ements
The Company has investment in SR amounts to Rs 42,659.63 millions as disclosed in the standalone financial statements. The fair value of SRs is determined through discounted cash flow method which involves management judgement using level 3 inputs such as projection of future cash flows and expenses. The management has involved credit rating agencies for valuation of SR. Considering the fair valuation of investments is significant to overall standalone financial statements and the degree of management's judgment involved in the estimate, any error in the estimate could lead to material misstatement in the standalone financial statements.	<ul> <li>Our audit procedures included an assessment of internal controls over measurement of fair value and evaluating the methodologies, inputs judgments made and assumptions used by management in determining fair values.</li> <li>We evaluated rationale of the models and accounting treatment applied. We compared observable inputs against independent sources and externally available market data for sample basis of key inputs as mentioned above to validate the reasonableness of the input values.</li> <li>We assessed disclosures included in the Standalone Financial Statements with respect to such fair valuation.</li> </ul>
Therefore, it is considered as a key audit matter. Impairment of Trade Receivable As described in Note 4 of the standalone financial state	ement
Trade receivables (net of impairment provision outstanding as on March 31, 2024 are Rs. 627.61 millions. Significant portion of trade receivables comprises of management fees receivable from trusts where the Company is the trustee.	<ul> <li>Our audit procedures included considering the Company's board approved policies for impairment of trade receivable and assessing compliance with the policies in terms of Ind AS 109.</li> </ul>
Ind AS 109 Financial instruments (Ind AS 109) requires the Company to provide for impairment of its financial instruments (designated as amortized cost or fair	<ul> <li>We assessed the design and tested the operating effectiveness of key controls over the computation of provision on trade receivables.</li> </ul>
value through other comprehensive income) using the expected credit loss (ECL) approach. Such ECL allowance is required to be measured considering the guiding principles mentioned in the	<ul> <li>We obtained management's assessment of future cash flows and validated the assumptions with historical data on recovery and write off on trade receivables.</li> </ul>
standard. The Company follows simplified approach for ECL on trade receivables and recognizes impairment loss allowance based on lifetime exposted credit loss at	<ul> <li>For sample cases we tested the computation of lifetime expected credit losses.</li> <li>We tested the arithmetical accuracy of computation of ECL provision performed by the</li> </ul>
allowance based on lifetime expected credit loss at each reporting date. The computation provision for receivables involves	<ul> <li>computation of ECL provision performed by the Company.</li> <li>We assessed the disclosures related to provision or trade receivables included in the Standalone</li> </ul>

Impairment of Loans	
As described in Note 5 of the standalone financial Stat	tement
Loans (net of impairment provision) outstanding as on March 31, 2024 are Rs. 2,288.71 millions. Ind AS 109 Financial instruments (Ind AS 109) requires the Company to provide for impairment of its financial	• Our audit procedures included considering the Company's board approved policies for impairment of financial instruments and assessing compliance with the policies in terms of Ind AS 109.
instruments (designated as amortized cost or fair value through other comprehensive income) using the expected credit loss (ECL) approach. Such ECL allowance is required to be measured considering the middle principle measured to be the start of the test.	<ul> <li>We understood the process of ECL estimation and tested the design and operating effectiveness of key controls around data extraction and validation.</li> </ul>
guiding principles mentioned in the standard. In the process of applying such principles and other requirements of the standard, a significant degree of judgement has been applied by the management in respect of following matters: a) Grouping of loans under homogenous pools in order to determine probability of default (PD) on a collective basis.	• We understood the methodology used by the management to arrive at their ECL provision and examined certain assumptions used by the Company in their model for grouping and staging of financial assets into various categories and default buckets and for determining the PD and LGD rates including the macro-economic factors.
<ul> <li>b) Determining the staging of loans</li> <li>c) Determining effect of past defaults on future probability of default</li> <li>d) Estimation of management overlay for macro-</li> </ul>	• We tested the operating effectiveness of the controls for staging of loans based on their past due status.
economic factors which could impact the ECL provisions. e) Estimation of loss given default (LGD) based on past recovery rates	<ul> <li>We tested the arithmetical accuracy of computation of ECL provision performed by the Company.</li> </ul>
Given the complexity, significant judgement involved in the estimation of impairment of financial instruments, we have considered this area as a key audit matter.	• We assessed the disclosures included in the Standalone Financial Statements with respect to such allowance / estimate are in accordance with the requirements of Ind AS 109 and Ind AS 107 Financial Instruments: Disclosures.

### **Other Information**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board report, but does not include the standalone financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the Annual report, which is expected to be made available to us after that date.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Board report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

CHARTERED ACCOUNTANTS

### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including Other Comprehensive income, Cash Flows and Changes in Equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also
  responsible for expressing our opinion on whether the company has adequate internal financial controls
  system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4th Floor, Iconic Tower, Urmi Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

CHARTERED ACCOUNTANTS

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements for the financial year ended March 31, 2024 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because of the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, and the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards)
     Rules, 2015, as amended;

(e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164 (2) of the Act;

- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Standalone Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2";
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements Refer Note 34 to the Standalone Financial Statements;
  - ii. The Company did not have any long- term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
  - iv. (a) The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 49.9 to the accounts, during the year no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the note 49.9 to the accounts, during the year no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material misstatement.

- v. The Company has not declared or paid any dividend during the year.
- vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Annexure 1 referred to in paragraph 1 under the heading 'Report on other legal and regulatory requirements' of our report of even date

### Re: Edelweiss Asset Reconstruction Company Limited ("the Company")

(i) (a)(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(a)(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme of physical verification of its property, plant and equipment which are verified by the management according to the phased programme designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with the policy, the Company has physically verified certain properly, plant and equipment during the year and no material discrepancies were noticed in respect of assets verified during the year.

(c) According to information and explanations given to us, the title deeds of all the immovable properties (other than properties where the Company is the lessee, and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year ended March 31, 2024.

(e) According to information and explanations given to us, there are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

 (ii) (a) The Company's business does not require maintenance of inventories and, accordingly, the requirement to report on clause 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has not been sanctioned any working capital limits in excess of five crore rupees in aggregate from banks and financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on Clause (ii)(b) of the Order is not applicable to the Company.

(iii) (a) The Company's principal business is to carry on business of an asset reconstruction and securitization, and give loans for undertaking restructuring of acquired loan as permitted by Reserve Bank of India. Accordingly, Clause 3(iii)(a) of the Order is not applicable to the Company.

(b) During the year the terms and conditions of the grant of all loans and advances to Companies are not prejudicial to the Company's interest.

(c) In respect of loans granted to Companies, the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular except in the following cases:

Name/Type of the Entity	Amount (In Rs millions)	Due date	Extent of delay (In days)	Remarks, If any
Various Borrowers	2,503.97	Various due dates	More than one day	
Multiple ARC Trusts	541.75	Various due dates	More than one day	

4th Floor, Iconic Tower, Urmi Estate, 95 Ganpatrao Kadam Marg, Lower Parel (West), Mumbai - 400013, India p: + 91 22 4474 3400

### LLP Registration NO. AAJ-1379

Noida - New Delhi - Gurugram - Mumbai - Bengaluru - Chennai - Pune - Dehradun

(d) The following amounts are overdue for more than ninety days from Companies to whom loan has been granted, and reasonable steps have been taken by the Company for recovery of the overdue amount of principal and interest.

Loan Given to	No. of cases	Total Overdue (In Rs millions)	Remarks, If any
Various Borrowers	5	2,503.97	-
ARC Trusts	167	529.76	-

(e) The Company's principal business is to carry on business of an asset reconstruction and securitization, and give loans for undertaking restructuring of acquired loan as permitted by Reserve Bank of India. Accordingly, the provision of Clause 3(iii)(e) of the Order is not applicable to the Company.

(f) According to information and explanations given to us, the Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to Promoters, related parties as defined in clause 2(76) of Companies Act, 2013.

- (iv) In our opinion and according to the information and explanations given to us, provisions of sections 185 and 186 of the Companies Act, 2013 in respect of loans to directors including entities in which they are interested and in respect of loans and advances given, investments made and guarantees, and securities given have been complied with by the Company.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) The Company is not in the business of sale of any goods or provision of such services as prescribed. Accordingly, the requirement to report on clause 3(vi) of the Order is not applicable to the Company.
- (vii) (a) According to the information and explanations given to us, the Company is generally regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, income-tax and other statutory dues applicable to it. The provisions relating to employee's state insurance, duty of customs, sales-tax, duty of excise and value added tax are currently not applicable to Company. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) According to records of the Company, the dues of income-tax, sales-tax, duty of custom, duty of excise, value added tax, cess and other statutory dues on account of dispute, are as follow:

Name of the statue			Period to which the amount relates	Forum where the dispute is pending	
Income Tax	Disallowance of	3.47	Assessment year	Commissioner of Income-tax	
L	claim made u/s 35D		2020-21	(Appeals)	

(viii) According to the information and explanations given to us, the Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

- (xvii) The Company has not incurred cash losses in the current year and in the immediately preceding financial year respectively.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly, Clause (xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in Note 49.8 to the Standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the Standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) In respect of other than ongoing projects, there are no unspent amounts that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act. This matter has been disclosed in Note 28b to the Standalone financial statements.

#### "ANNEXURE 2" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF EDELWEISS ASSET RECONSTRUCTION COMPANY LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

#### Τn The Member of **Edelweiss Asset Reconstruction Company Limited**

We have audited the internal financial controls over financial reporting with reference to Standalone Financial Statement of Edelweiss Asset Reconstruction Company Limited ("the Company") as of March 31, 2024 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting with reference to Standalone Financial Statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to Standalone Financial Statement based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to Standalone Financial Statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting with reference to Standalone Financial Statement and their operating effectiveness. Our audit of internal financial controls over financial reporting with reference to Standalone Financial Statement included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

# NANGIA & COLLP

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting with reference to Standalone Financial Statement.

#### Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting with reference to Standalone Financial Statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to Standalone Financial Statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Standalone financial statements.

#### Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting with reference to Standalone Financial Statement were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## 1.0 Notes to the Standalone Financial Statements:

#### 1.1 Background

Edelweiss Asset Reconstruction Company Limited ('the Company') is registered with Reserve Bank of India w.e.f. October 16, 2009 with Registration no. 13/2009 as a Securitisation and Asset Reconstruction Company under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.

The Company was incorporated as a Public Company on October 5, 2007 and is engaged in business of acquiring Loan Portfolios, Loan Accounts, Non- Performing Assets (NPA) from the Banks and Financial Institutions and resolving them through appropriate resolution strategies enunciated in SARFAESI and give loans for undertaking restructuring of acquired loan as permitted by Reserve Bank of India. The Company's registered office is at Edelweiss House, Off CST road, Kalina, Mumbai, Maharashtra, India.

The Ultimate Holding Company of the Company is Edelweiss Financial Services Limited ("EFSL").

#### **1.2** Basis of preparation of financial statements

The standalone financial statements of the Company has been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These standalone financial statements have been prepared on a historical cost basis, except for certain financial instruments such as financial assets and liabilities measured at fair value through profit and loss (FVTPL) instruments, derivative financial instruments and other financial assets held for trading, which have been measured at fair value.

The standalone financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

## **1.3** Presentation of financial statements

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 32.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without it being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the company and or its counterparties

Notes to the standalone financial statements (Continued)

### 1.4 Material accounting policies

#### 1.4.1 Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected)
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment

### 1.4.2 The SPPI test

As a second step of its classification process the Company assesses the contractual terms of financial to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset. The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

## 1.4.3 Recognition of Interest

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the financial asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

Notes to the standalone financial statements (Continued)

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in statement of profit and loss.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the amortised cost (net of expected credit loss) of the financial asset.

#### 1.4.4 Financial Instruments

#### 1.4.4.1 Date of recognition

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises debt securities, deposits and borrowings when funds reach the Company.

#### 1.4.4.2 Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. Trade receivables are measured at the transaction price.

#### 1.4.4.3 Day 1 profit or loss

When the fair value of financial instruments at initial recognition differs from the transaction price, the Company accounts for the Day 1 profit or loss, as described below:

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Notes to the standalone financial statements (Continued)

#### 1.4.5 Measurement categories of financial instruments

## 1.4.5.1 Financial assets:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through profit or loss [FVTPL]

The Company measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are are initially measured at fair value and subsequently measured at FVTPL.

#### 1.4.5.1.1 Amortized cost and Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including receipts and payments that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

## 1.4.5.1.2 Financial assets at fair value through profit or loss

Financial assets in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when the following criteria is met. Such designation is determined on an instrument-by-instrument basis:

Notes to the standalone financial statements (Continued)

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or recognising gains or losses on them on a different basis

Financial assets at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss.

#### 1.4.5.1.3 Loan commitment

Undrawn loan commitments are commitments under which, the Company is required to provide a loan with pre-specified terms to the customer during the duration of commitment. Undrawn loan commitments are in the scope of the ECL requirements, as set out in Note 1.4.8

### 1.4.5.2. Financial liabilities

All financial liabilities are measured at amortised cost except derivative financial liabilities and financial liabilities designated at fair value through profit and loss.

### 1.4.5.2.1 Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

The Company issues certain non-convertible debentures, the return of which is linked to performance of specified indices over the period of the debenture. Such debentures have a component of an embedded derivative which is fair valued at a reporting date. The resultant 'net unrealised loss or gain' on the fair valuation of these embedded derivatives is recognised in the statement of profit and loss. The debt component of such debentures is measured at amortised cost using yield to maturity basis.

## 1.4.5.2.2 Financial liabilities at fair value through profit or loss

Financial liabilities in this category are those that are not held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when the following criteria is met. Such designation is determined on an instrument-by-instrument basis:

• The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring liabilities or recognising gains or losses on them on a different basis,

Financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss. Interest incurred on financial liabilities designated at FVTPL is accrued in finance cost, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument.

Notes to the standalone financial statements (Continued)

## 1.4.5.3 Financial liabilities and equity instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments

## 1.4.6 Reclassification of financial assets and financial liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its financial assets or liabilities upto and including the year ended March 31, 2024.

## 1.4.7 Derecognition of financial assets and financial liabilities

1.4.7.1 Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised financial asset are classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be POCI.

When assessing whether or not to derecognise a loan to a customer, amongst others, the Company considers the following factors:

- Change in currency of the loan
- Introduction of an equity feature
- Change in counterparty

If the modification is such that the instrument would no longer meet the SPPI criterion

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Notes to the standalone financial statements (Continued)

1.4.7.2 Derecognition of financial assets (other than due to substantial modification of terms and conditions)

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients

The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Notes to the standalone financial statements (Continued)

#### 1.4.7.3 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised in profit or loss.

#### 1.4.8 Impairment of financial assets

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitment, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Notes to the standalone financial statements (Continued)

Based on the above process, the Company categorises its financial instruments into Stage 1, Stage 2, and Stage 3 as described below:

- Stage 1:When loans are first recognised, the company recognises an allowance based<br/>on 12mECLs. Stage 1 financial instruments also include facilities where the<br/>credit risk has improved and the financial instruments has been reclassified<br/>from Stage 2.
- Stage 2: When a financial instruments has shown a significant increase in credit risk since origination, the company records an allowance for the 12m ECLs. Stage 2 financial instruments also include facilities, where the credit risk has improved and the financial instruments has been reclassified from Stage 3.
- Stage 3:Financial instruments considered credit-impaired (as outlined in Note1.5.2.2).The company records an allowance for the LTECLs.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend and the Company's understanding of the specific future financing needs of the debtors.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate. The Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

If a financial instrument includes both a loan (i.e. financial asset) and an undrawn commitment (i.e. loan commitment) component and the Company cannot separately identify the expected credit losses on the loan commitment component from those on the financial asset component, the expected credit losses on the loan commitment have been recognised together with the loss allowance for the financial asset. To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses have been recognised as a provision.

#### 1.4.9 Collateral valuation

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is received a generally assessed, at a minimum, at inception and re-assessed on a periodical basis.

Notes to the standalone financial statements (Continued)

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, or based on housing price indices.

#### 1.4.10 Write off

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in statement of profit and loss.

#### 1.4.11 Determination of fair value

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

• Level 1 financial instruments –Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Notes to the standalone financial statements (Continued)

- Level 2 financial instruments-Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.
- Level 3 financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

The Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

### 1.4.12 Revenue from contract with customer

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Company consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Company excludes the estimates of variable consideration that are constrained. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

The Company recognises revenue from the following sources:

- a. The fee income comprises of management fees. The Company receives management fee from trusts declared by it for acquisition of financial assets and the same is accounted for on accrual basis as per terms of the relevant trust deeds and offer document issued by the Trust. Management fees are calculated and charged as a percentage of the Net Assets Value (NAV) at the lower end of the range of the NAV specified by the Credit Rating Agency.
- b. Redemption incentive and recovery incentive is accounted over the period on cash basis, i.e. as and when received by the Company, based on terms of the relevant trust deeds and offer document issued by the Trust.
- c. Any upside share in excess realisation over acquisition price of financial asset by trust is recognised at point in time basis as per terms of the relevant trust deed/offer document.
- d. Interest on bank deposits is accounted for on accrual basis as per the terms of the deposits.

The above receipts are recognised as revenue excluding GST.

Notes to the standalone financial statements (Continued)

#### 1.4.13 Operating leases (IND AS 116)

#### Leases as a Lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### Rights-of-use assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e the date of underlying asset is available for use). Rights-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of rights-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Rights-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

#### Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date as the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in lease term, a change in lease payments or a change in the assessment of an option to purchase the underlying asset.

#### Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight-line basis over lease term.

#### 1.4.14 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Notes to the standalone financial statements (Continued)

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares into equity shares.

## 1.4.15 Retirement and other employee benefit

Provident fund and national pension scheme

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

### Gratuity

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

#### **Compensated Absences**

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

Notes to the standalone financial statements (Continued)

#### 1.4.16 Share-based payment arrangements

Certain employees of the Company have been granted equity-settled ESOPs by the ultimate parent company (Edelweiss Financial Services Limited). The Company recognizes a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the ultimate parent at the grant date.

The fair value determined at the grant date is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in deemed capital contribution from the ultimate parent. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the deemed capital contribution. In cases where the share options granted vest in instalments over the vesting period, the Company treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

#### 1.4.17 Property, plant and equipment

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria i.e. it is probable that future economic benefits will flow to the entity and cost can be measured reliably. Repairs and maintenance are recognised in statement of profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation.

Notes to the standalone financial statements (Continued)

Estimated useful lives of the assets are as follows:

Estimated useful life		
60 years		
8 years		
5 years		
6 years		
3 years		

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss. The date of disposal of an item of property, plant and equipment is the date the recipient obtains control of that item in accordance with the requirements for determining when a performance obligation is satisfied in Ind AS 115.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### 1.4.18 Intangible Assets

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition, and other economic factors. Amortization methods and useful lives are reviewed periodically including at each financial year end. Changes in the expected useful life, or the expected pattern of consumption of future economic benefits embodied in the asset, are accounted for by changing the amortisation period or methodology, as appropriate, which are then treated as changes in accounting estimates.

Estimate useful life of software is considered as 3 years.

Notes to the standalone financial statements (Continued)

1.4.19 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

1.4.20 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

1.4.21 Expenses incurred by the Company on behalf of the trust

Expenses incurred at pre-acquisition stage are recognised as expenses for the period in which such costs are incurred. If such expenses are contracted to be recovered from the trusts the same are shown as loan to trust in the Balance Sheet and grouped under Loans. These expenses are reimbursed to the Company in terms of the provisions of relevant trust deed and offer document of the trusts.

#### 1.4.22 Provisions and other contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Company determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the statement of profit and loss net of any reimbursement. Detailed disclosures are provided in Note 17.

#### 1.4.23 Income tax expenses

Income tax expense represents the sum of the current tax and deferred tax.

Notes to the standalone financial statements (Continued)

#### 1.4.23.1 Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

#### 1.4.23.2 Deferred tax

Deferred tax is recognised on temporary differences at the reporting date between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognised with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognised to the extent it is probable that:

• the entity will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

## 1.4.23.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Notes to the standalone financial statements (Continued)

1.4.23.4 Goods and services tax /value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognised net of the goods and services tax/value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

1.4.24 Undrawn Loan Commitments

Undrawn loan commitments are commitments under which, over the duration of the commitment, the Company is required to provide a loan with pre-specified terms to the customer. Undrawn loan commitments are in the scope of the ECL requirements, as set out in Note 5.2. The nominal contractual value of undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the balance sheet. The nominal values of these instruments together with the corresponding ECLs are disclosed in Note 5.2.

1.4.25 Derivative contracts (Derivative assets / Derivative liability)

Company has designed a risk strategy based to cover exposure on issuance of G-Sec Linked Debentures, by entering into a derivative contracts either to minimize the loss or to earn a minimum committed income by entering into a combination of derivative contracts (say for example purchased call and put options) with a wide range of strike prices. Above strategy has been approved by the risk committee and ensures that risk is fully or partially covered, hence supports to reduce the risk exposure.

Derivatives are initially recognised at fair value and are subsequently re-measured at fair value through profit or loss. The resulting gain or loss is recognised in profit or loss immediately.

## 1.5 Critical accounting judgements, estimates and assumptions

In the application of the Company's accounting policies, which are described in note 1.4, the management is required to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities, about the carrying amounts of assets and liabilities that are not readily available from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The judgements, estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Notes to the standalone financial statements (Continued)

## 1.5.1 Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations, that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the standalone financial statements.

#### 1.5.1.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

### 1.5.1.2 Significant increase in credit risk

As explained in note 1.4.8, ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. Ind AS 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information. Refer to note 1.5.2.2 for more details.

## 1.5.1.3 Determining lease term for lease contracts with renewal and termination option:

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has lease contracts that include extension and termination options. The Company applies judgement in evaluating whether it is reasonably certain, whether or not, to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control that affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements or significant customisation of the leased asset).

Notes to the standalone financial statements (Continued)

#### 1.5.2 Sources of key estimation uncertainty

The following are the key assumptions concerning the future, and other sources of key estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### 1.5.2.1 Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

For Investments made into Security receipts (SRs), Company uses discounted cash flow model, given that the SRs are less liquid instruments. Expected cash flow levels including timing of cash flows are estimated by using quantitative and qualitative measures regarding the characteristics of the underlying assets including default rates, nature & value of collaterals, manner of resolution and other economic drivers. For any valuation which are based on models, Judgements and estimates are applied, which include considerations of liquidity, credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

#### 1.5.2.2 Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- Probabilities of defaults (PDs) the calculation of which includes historical data, assumptions and expectations of future conditions.
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life-time expected credit loss model basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, exposure at defaults and loss given defaults (LGDs)

Notes to the standalone financial statements (Continued)

It is Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

### 1.5.2.3 Effective interest rate method

The Company's EIR methodology, as explained in Note 1.4.3, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of characteristics of the product life cycle (including prepayments and penalty interest and charges).

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

### 1.5.2.4 Accounting for deferred taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The Company has recognised deferred tax assets on carried forward tax losses where the Company believes that the said deferred tax assets shall be recoverable based on the estimated future taxable income which in turn is based on approved business plans and budgets. The losses are allowed to be carried forward to the years in which the Company expects that there will be sufficient taxable profits to offset these losses.

## 1.5.2.5 Provisions and other contingent liabilities

The company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. When the company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

For further details on provisions and other contingencies see Note 17 and 34.

### Securities premium account

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

### Debenture redemption reserve

The Companies Act 2013 requires companies that issue debentures to create a debenture redemption reserve from annual profits until such debentures are redeemed. The Company is required to transfer a specified percentage (as provided in the Companies Act, 2013) of the outstanding redeemable debentures to debenture redemption reserve. The amounts credited to the debenture redemption reserve may not be utilised except to redeem debentures. On redemption of debentures, the amount may be transferred from debenture redemption reserve to retained earnings. Company has transferred back INR 69.05 million from DRR to retained earnings on account of repayment of debentures during the year.

According to the provisions of Rule (18) (7) (iii) of the Companies (Share Capital and Debentures) Rules, 2014, requirements of creation of Debenture Redemption Reserve are not applicable to listed companies.

### Impairment Reserve

Pursuant to RBI circular no. RBI/2019-20/170 DOR (NBFC).CC.PD.No.109/22.10.106/2019-20 dated March 13, 2020, Reserve Bank of India (RBI) requires every Asset Reconstruction Company to create an Impairment Reserve by appropriating the difference between impairment allowance under Ind AS 109 and the provisioning required under earlier applicable Income Recognition, Asset Classification and Provisioning (IRACP) guidelines (including standard asset provisioning) from their net profit or loss after tax to the said Impairment Reserve. The balance in the 'Impairment Reserve' shall not be reckoned for regulatory capital. Further, no withdrawals are permitted from this reserve without prior permission from RBI.

### **Retained Earnings**

Retained earnings represents surplus/accumulated earnings of the Company and are available for distribution to shareholders.

### 29. Income Tax

The components of income tax expense recognised in profit or loss for the years ended March, 31 2024 and 2023 are:

Particulars	2023-24	2022-23	
Current tax	1,945.79	1,354.93	
Adjustment in respect of current income tax of prior years	53.76	15.53	
Deferred tax relating to origination and reversal of temporary differences	(775.53)	-263.86	
Total tax expense	1,224.02	1,106.60	
Total Current Tax	1,999.55	1,370.46	
Total Deferred Tax	(775.53)	-263.86	

Break-up of Recognition of Current Tax	2023-24	2022-23
In P&L	1,999.55	1,370.46
in OCI	-	-

### Reconciliation of the total tax expense

The tax expense shown in the statement of profit and loss differs from the tax expense that would apply if all profits had been charged at India corporate tax rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the years ended March 31, 2024 and 2023 is, as follows:

Particulars	2023-24	2022-23	
Profit before tax	4,775.97	4,290.53	
Tax rate	25.17%	25.17%	
Income tax expense calculated based on above tax rate	1,202.11	1,079.93	
Adjustment in respect of income tax of prior years	53.76	15.53	
Adjustment in respect of deferred tax of prior years	(53.76)	-	
Effect of non-deductible expenses	0.03	0.00	
CSR Expenditure disallowance	18.63	23.91	
Others	3.25	(12.77)	
Tax expense recognised in profit or loss	1,224.02	1,106.60	
Effective Income Tax Rate	25.63%	25.43%	

Notes to the standalone financial statements (Continued) (Currency: Indian rupees in millions)

### 29.1 Components of deferred tax

The following table shows deferred tax recorded in the Balance sheet and changes recorded in the income tax expense:

March 31, 2024	Opening deferred tax asset/(liability)	Recognised in profit or loss	Recognised in other comprehensive income	Recognised directly in equity	Others	Total Movement	Closing deferred tax asset/(liability)
Deferred taxes in relation to:							
Investments in Security Receipts	773.30	679.96	-	~	-	679.96	1,453.26
Trade Receivables	66.96	86.09	-	-	-	86.09	153.06
Share of Loss in Securitisation Trusts	(1,186.73)	(100.83)	-	-	-	(100.83)	(1,287.56)
ECL on Loans	120.38	72.81	-		-	72.81	193.19
ESOP cost	4.01	-	-	-	-	-	4.01
Others	12.15	37.48	0.28	-	-	37.76	49.91
Total	(209.93)	775.51	0.28	-		775.80	565.87

March 31, 2023	Opening deferred tax asset/(liability)	Recognised in profit or loss	Recognised in other comprehensive income	Recognised directly in equity	Others	Total Movement	Closing deferred tax asset/(liahility)
Deferred taxes in relation to:							
Investments in Security Receipts	415.76	357.54	-	-	-	357.54	773.30
Trade Receivables	96.97	(30.01)	-	-	-	(30.01)	66.95
Share of Loss in Securitisation Trusts	(1,126.02)	(60.71)	-	-	-	(60.71)	
ECL on Loans	124.81	(4.43)	-	-	-	(4.43)	
ESOP cost	4.01	-	-	-	-	-	4.01
Others	9.93	1.47	0.73	-	-	2.22	12.15
Total	(474.53)	263.86	0.73	-	-	264.61	(209.93)

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority. Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

### 31. Retirement Benefit Plan

### A) Defined contribution plan (Provident fund and National Pension Scheme):

Amount of ₹ 26.08 million (Previous year: ₹ 23.59 million) is recognised as expenses and included in "Employee benefit expense" – Note 27 in the statement of Profit and loss.

### B) Defined benefit plan (Gratuity):

The following tables summarize the components of the net benefit expenses recognised in the statement of profit and loss and the funded and unfunded status and amount recognised in the balance sheet for the gratuity benefit plan.

### 1: Reconciliation of Defined Benefit Obligation (DBO)

	March 31, 2024	March 31, 2023
Present value of DBO at start of the year	38.61	32.74
Service Cost		
a. Current Service Cost	6.69	6.30
b. Past Service Cost	-	-
c. Loss/ (Gain) from Settlement	-	-
Interest Cost	2.73	1.80
Benefits Paid	(4.81)	(2.94)
Re-measurements		-
a. Actuarial Loss/ (Gain) from changes in demographic assumptions	-	-
b. Actuarial Loss/ (Gain) from changes in financial assumptions	0.22	(2.51)
c. Actuarial Loss/ (Gain) from experience over the past year	0.87	5.44
Effect of acquisition/ (divestiture)	-	-
Changes in foreign exchange rates	-	-
Transfer In/ (Out)	(0.11)	(2.22)
Present value of DBO at end of the year	44.19	38.61

### 2: Reconciliation of Fair Value of Plan Assets

	March 31, 2024	March 31, 2023
Fair Value of Plan Assets at start of the year	-	-
Contributions by Employer	4.81	2.94
Benefits Paid	(4.81)	(2.94)
Interest Income on Plan Assets	-	-
Re-measurements	-	-
Return on Plan assets, excluding amount included in net interest on the net defined benefit liability/ (asset)	-	-
Effect of acquisition/ (divestiture)	-	-
Changes in foreign exchange rates	-	-
Transfer In/ (Out)	-	-
Fair Value of Plan Assets at end of the year	-	-
Actual Return on Plan Assets	-	-
Expected Employer Contributions for the coming year	-	-

### 3: Expenses recognised in the Profit and Loss Account

	March 31, 2024	March 31, 2023
Service Cost		
a. Current Service Cost	6.69	6.30
b. Past Service Cost	-	-
c. Loss/ (Gain) from Settlement	-	-
Net Interest on net defined benefit liability/ (asset)	2.73	1.80
Changes in foreign excxhange rates	-	-
Employer Expenses/ (Income)	9.42	8.10

### 4: Net Liability/ (Asset) recognised in the Balance Sheet

	March 31, 2024	March 31, 2023
Present Value of DBO	44.19	38.61
Fair Value of Plan Assets	-	-
Liability/ (Asset) recognised in the Balance Sheet	44.19	38.61
Funded Status [Surplus/ (Deficit)]	(44.19)	(38.61)
Of Which, Short term Liability	6.59	5.75
Experience Adjustment on Plan Liabilities: (Gain)/ Loss	0.87	5.45

### Notes to the standalone financial statements (Continued) (Currency: Indian rupees in millions)

### 5: Actuarial Assumptions

	March 31, 2024	March 31, 2023
Salary Growth Rate (% p.a.)	7.00%	7.00%
Discount Rate (% p.a.)	7.00%	7.10%
Withdrawal Rate (% p.a.)	16.00%	16.00%
Mortality Rate	IALM 2012-14	IALM 2012-14
	(Ultimate)	(Ultimate)
Interest Rate on Net DBO/ (Asset) (% p.a.)	7.10%	5.90%
Expected Weighted Average Remaining Working Life (years)	3.50	3.50

### 6: Movement in Other Comprehensive Income

	March 31, 2024	March 31, 2023
Balance at start of year (Loss)/ Gain	(10.02)	(7.09)
Re-measurements on DBO	-	~
a. Actuarial (Loss)/ Gain from changes in demographic assumptions	-	-
b. Actuarial (Loss)/ Gain from changes in financial assumptions	(0.22)	2.51
c. Actuarial (Loss)/ Gain from experience over the past year	(0.87)	(5.44)
Balance at end of year (Loss)/ Gain+	(11.11)	(10.02)

### 7: Sensitivity Analysis

DBO increases/ (decreases) by	March 31, 2024	March 31, 2023
1% Increase in Salary Growth Rate	2.13	1.93
1% Decrease in Salary Growth Rate	(2.07)	(1.80)
1% Increase in Discount Rate	(2.05)	(1.78)
1% Decrease in Discount Rate	2.15	1.95
1% Increase in Withdrawal Rate	-	0.01
1% Decrease in Withdrawal Rate	-	(0.01)
Mortality (increase in expected lifetime by 1 year)	-	-
Mortality (increase in expected lifetime by 3 years)	-	(0.00)

Note: The sensitivity is performed on the DBO at the respective valuation date by modifying one parameter whilst retaining other parameters constant. There are no changes from the previous period to the methods and assumptions underlying the sensitivity analyses.

### 8: Movement in Surplus/ (Deficit)

### 9: Other Disclosures

### **Description of ALM Policy**

As the plan is unfunded, an ALM policy is not applicable.

### Description of funding arrangements and funding policy that affect future contributions

The plan is unfunded and the status is unlikely to change over the next few years.

### Maturity profile

The average expected remaining lifetime of the plan members is 3.5 years (Previous year: 3.5 years) as at the date of valuation. This represents the weighted average of the expected remaining lifetime of all plan participants.

### Notes to the standalone financial statements (Continued)

(Currency: Indian rupees in millions)

### 32. Maturity analysis of assets and liabilities

The table below shows an analysis of assets and liabilities analysed according to when they are expected to be recovered or settled. With regard to loans and advances to customers, the company uses the same basis of expected repayment behaviour as used for estimating the EIR. Issued debt reflect the contractual coupon amortisations.

* Information relating to remuneration paid to key managerial person mentioned above excludes provision made for gratuity, leave encashment and deferred bonus which are provided for group of employees on an overall basis. These are included on cash basis. The variable compensation included herein is on cash basis.

### Notes to the standalone financial statements (Continued) (Currency: Indian rupees in millions)

### F. Compensation of key management personnel of the Company

Key management personnel are those individuals who have the authority and responsibility for planning and exercising power to directly or indirectly control the activities of the Group and its employees. The Company considers the members of the Board of Directors which include independent directors (and its sub-committees) and Executive Committee to be key management personnel for the purposes of Ind AS 24 Related Party Disclosures.

Particulars	March 31, 2024	March 31, 2023
Short-term employee benefits	62.46	47.33
Post-employment pension (defined contribution)	-	-
Termination benefits	-	_
Total	62.46	47.33

### G. Transactions with key management personnel of the Company

The Company enters into transactions, arrangements and agreements involving directors, senior management and their business associates, or close family members, in the ordinary course of business under the same commercial and market terms, interest and commission rates that apply to non-related parties. The following table provides the total amount of transactions, which have been entered into with key management personnel for the relevant financial year:

Particulars	March 31, 2024	March 31, 2023
Key management personnel of the Company	62.46	47.33

### 36. Capital management

The primary objectives of the company's capital management policy are to ensure that the company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

### 37. Fair value measurement

### **37.1 Valuation Principles**

The company measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

• Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

• Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.

• Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs that are not observable and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

### 37.2 Valuation framework

The company has an established control framework for the measurement of fair values. This framework includes a Control function, which is independent of front office management and reports to the Chief Financial Officer, and which has overall responsibility for independently verifying the results of investment operations and all significant fair value measurements. Specific controls include:

- verification of observable pricing;
- re-performance of model valuations;
- a review and approval process for new models and changes to models;
- quarterly calibration and back-testing of models against observed market transactions;
- analysis and investigation of significant daily valuation movements; and

• review of significant unobservable inputs, valuation adjustments and significant changes to the fair value measurement of Level 3 instruments compared with the previous month, by senior member of management.

### 37.3 Assets and liabilities by fair value hierarchy

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

Particulars		March 3	31, 2024	
	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investments				
Security receipts	-	-	42,659.63	42,659.63
Total financial assets measured at fair value on a recurring basis	-	-	42,659.63	42,659.63

Particulars		March 3	1, 2024	
	Level 1	Level 2	Level 3	Total
Liabilities measured at fair value on a recurring basis -				
Non Convertible Debentures (designated at FVTPL)	-	-	7,010.23	7,010.23
Total financial liabilities measured at fair value on a recurring basis	-	-	7,010.23	7,010.23

Particulars		March 3	31, 2023	
	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investments				
Security receipts	-	-	44,393.80	44,393.80
Total financial assets measured at fair value on a recurring basis	-		44,393.80	44,393.80

Particulars		March 3	1, 2023	
	Level 1	Level 2	Level 3	Total
Liabilities measured at fair value on a recurring basis -				
Non Convertible Debentures (designated at FVTPL)	-	-	8,869.51	8,869.51
Total financial liabilities measured at fair value on a recurring basis	-	-	8,869.51	8,869.51

During the year there were no transfers between level 1 and level 2. Similarly, there were no transfers from or transfer to level 3.

Carrying amounts of cash and cash equivalents, trade receivables, loans and trade and other payables as on March 31, 2024 approximate the fair value because of their short term nature. Difference between carrying amounts and fair values of bank deposits, other financial assets, other financial liabilities and borrowings subsequently measured at amortised cost is not significant in each of the years presented.

### 37.4 Movement in level 3 financial instruments measured at fair value

The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

	Investments in security
Financial assets	receipts
At April 1, 2023	44,393.80
Purchase of Investments	16,411.40
Redemption/Write-offs	(14,855.31)
Gains for the year recognised in profit or loss	(3,290.26)
At March 31, 2024	42,659.63
Unrealised gains related to balances held at the end of year	(4,338.01)
Financial liabilities	Debt Securities
At April 1, 2023	8,869.51
Issuances	-
Settlements	(1,279.74)
Interest Accrued/ losses for the year recognised in profit or loss	(579.54)
At March 31, 2024	7,010.23
Unrealised losses related to balances held at the end of the year	1,435.78
	Investments in security
Financial assets	receipts
At April 1, 2022	47,485.30
Purchase of Investments	14,648.14
Redemption/Write-offs	(15,971.05)
Gains for the year recognised in profit or loss	(1,768.59)
At March 31, 2023	44,393.80
Unrealised gains related to balances held at the end of the year	(1,047.33)

Financial liabilities	Debt Securities
At April 1, 2022	11,243.99
Issuances	-
Settlements	(1,904.55)
Interest Accrued/ losses for the year recognised in profit or loss	(469.93)
At March 31, 2023	8,869.51
Unrealised losses related to balances held at the end of the year	2,024.97

	Total	44,393.80	8,869.51							

* Expected Gross Recoveries are pertaining to the overall asset under management of the company. The cash attributable to the company's share in expected Gross recoveries will be dependent on the company's investment share and terms of the SR subscribed.

# 37.6 Quantitative analysis of significant unobservable inputs

### Discount margin/spreads

Discount margin/spreads represent the discount rates used when calculating the present value of future cash flows. In discounted cash flows. In discount margin/spreads are added to the benchmark rate when discounting the future expected cash flows. Hence, these spreads reduce the net present value of an asset or increase the value of a liability. They generally reflect the premium an investor expects to achieve over the benchmark interest rate to compensate for the higher risk driven by the cash flows caused by the credit quality of the asset. They can be implied from market prices and are usually unobservable for illiquid or complex instruments.

### Cash Flow

Expected cash flow levels including timing of cash flows are estimated by using quantitaive and qualitative measures regarding the characteristics of the underlying assets including default rates, nature and value of collaterals, manner of resolution and other economic

drivers. The triming of expected cash flows is influenced by the nature of collateral and the expected use of the same by the market participants. The manner of resolution is determined based on financial position and negotiations with the counterparty.

# 37.7 Quantitative analysis of significant unobservable inputs

## Asset backed securities

These instruments include residential mortgage backed securities (RMBS), commercial mortgage backed securities (CMBS) and other asset-backed securities. The market for these securities is not active. Therefore, the Group uses a variety of valuation techniques to measure their fair values. For certain more liquid instruments, the Group uses trade and price data updated for movements in market levels between the observed and the valuation dates. Less liquid instruments are valued by discounted cash flow models. Expected cash flow levels are estimated by using quantitative measures regarding the characteristics of the underlying assets including prepayment rates, default rates and other economic drivers such as loan-to-value ratios, emergence period estimation, indebtedness and rental income levels. Securities with no significant unobservable valuation inputs are classified as Level 2, while instruments with no comparable instruments or valuation inputs are classified as Level 3.

-

Notes to the standalone financial statements (Continued) (Currency: Indian rupees in millions)

### 38. Analysis of risk concentration

The following table shows the risk concentration by industry for the components of the balance sheet. The concentrations of risk are determined based on client/counterparty's industry sector. Additional disclosures for credit quality and year-end stage classification are further disclosured in Note 5.

Industry analysis - Risk concentration for March 31, 2024

39. Collateral held and other credit enhancements

The below tables show the maximum exposure to credit risk by class of financial asset. They also show the total fair value of collateral and the net exposure to credit risk.

March 31, 2024	Maximum exposure to credit risk (carrying amount before ECL)	Principal type of collateral
Financial assets		
Loans:		
Wholesale loans - Secured	2,494.39	Tangible Assets
Wholesale loans - Unsecured	561.85	
Trade receivables	1,119.51	Tangible Assets
Total financial assets at amortised cost	4,175.75	
Financial assets at FVTPL (except equity)*	42,659.63	
Total financial instruments at fair value through profit or loss	42,659.63	
	46,835.38	
Loan commitments -Secured	-	Tangible Assets
Loan commitments -Unsecured	-	
Other commitments (max exposure)	131.88	
Total	46,967.26	

March 31, 2023	Maximum exposure to credit risk (carrying amount before ECL)	Principal type of collateral
Financial assets		
Loans:		
Wholesale loans - Secured	2,382.23	Tangible Assets
Wholesale loans - Unsecured	659.17	
Trade receivables	2,781.15	Tangible Assets
Total financial assets at amortised cost	5,822.55	
Financial assets at FVTPL (except equity)*	44,393.80	Tangible Assets
Total financial instruments at fair value through profit or loss	44,393.80	
	50,216.35	
Loan commitments -Secured	125.00	Tangible Assets
Loan commitments -Unsecured	-	
Other commitments (max exposure)	131.88	
Total	50,473.23	

*Financial assets at FVTPL (except equity) and trade receivables comprises of Investment in Security Receipts and fees receivables respectively. Investments in security receipts are made into the security receipts issued by the Trusts and Trusts in turn have used these proceeds to acquire financial assets from banks/Financial Institutions which are secured by collateral, such as Land & Building, Plant & Machinery, Book debts, Inventory and other working capital items, Shares and Others.

Loans including commitments are secured by way of tangible assets such as Land & Building, Plant & Machinery, Book debts, Inventory and other working capital items, Shares and Others.

The below tables provide an analysis of the current fair values of collateral held and credit enhancements for stage 3 assets. Dependent on the level of collateral, some Stage 3 exposures may not have individual ECLs when the expected value of the collateral is greater than the LGD, even in if the future value of collateral is forecast using multiple economic scenarios.

40. Liquidity risk and funding management

Liquidity risk emanates from the mismatches existing on the balance sheet due to differences in maturity and repayment profile of assets and liabilities. These mismatches could either be forced in nature due to market conditions or created with an interest rate view. Such risk can lead to a possibility of unavailability of funds to meet upcoming obligations arising from liability maturities. To avoid such a scenario, Edelweiss has ensured maintenance of a Liquidity Cushion in the form of Fixed Deposits, Cash, Credit Lines etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. A liquidity cushion amounting to 10-12% of the borrowings is sought to be maintained through such assets. These would be to take care of immediate obligations while continuing to honour our commitments as a going concern. There are available lines of credit from banks which are drawable on notice which further augment the available sources of funds.

40. 1. Analysis of non-derivative financial liabilities by remaining contractual maturities

The table below summarises the maturity profile of the undiscounted cash flows of the Company's non-derivative financial liabilities as at 31 March.

Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Company expects that the counterparties will not request repayment on the earliest date it could be required to pay.

As at March 31, 2024	Less than 3 months	3 months to 6 months	6 months to 1 year	1 year to 3 years	Greater than 3 Years	Total

Other financial assets	-	-	52.98	-	52.98
Property, plant and equipment	1.15	-	-	6.17	7.32
Other Intangible assets	-	-	-	19.97	19.97
Other non financial assets	-	-	-	14.31	14.31
Total assets	38,500.14	842.65	19,353.22	61.94	58,757.95

1. The assets pledged as collateral represents assets available for specific purpose which are not available as collateral for additional borrowings.

* Represents assets which are not pledged, however the asset has been created for specific purpose and hence it is restricted from using to secure funding for legal or other reason.

Refer terms of pledge mentioned in Note 6.1

41. Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Board has established limits on the non-trading interest rate gaps for stipulated periods.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Group's statement of profit and loss and equity. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at 31 March 2023, including the effect of hedging instruments. The sensitivity of equity is calculated by revaluing the fixed rate FVOCI, including the effect of any associated hedges and swaps designated as cash flow hedges, at 31 March for the effects of the assumed changes in interest rates. The total sensitivity of equity is based on the there are parallel shifts in the yield curve.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Group's statement of profit and loss and equity.

		2023-24					
Currency of borrowing / advances	Increase in basis points	Effect on profit before tax	Effect on Equity	Decrease in basis points	Effect on profit before tax	Effect on Equity

42. Unconsolidated Structured Entities

An entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

The following tables show the carrying amount of the company's recorded interest in its balance sheet as well as the maximum exposure to risk (as defined in below) due to these exposures in the unconsolidated structured entities.

Particulars	March	March 31, 2024		
	Securitisation trusts	Maximum exposure	Securitisation trusts	Maximum exposure
Loans	389.79	389.79	591.95	591.95
